

## **What's New LEED-EB®?**

***Ed Iczkowski, LEED AP***  
*EFI Commissioning Services, LLC*

### **Synopsis**

Leadership in Energy & Environmental Design for Existing Buildings, Upgrades, Operations & Maintenance (LEED-EB) is one of the U.S. Green Building Council's (USGBC) newest green building products. LEED-EB is not a one time event but an ongoing process that reduces energy consumption and improves the building operation.

Attend the informal discussion and learn about the objectives, benefits, and how commissioning is an important part of LEED-EB. Successful strategies that were implemented in certified projects will be highlighted. Find out what buildings are potential candidates for certification, how to certify a building, the direction of the marketplace, or simply just ask questions.
