

PG&E Welcomes You To NCBC 2006

Duane Larson
Senior Manager
Customer Energy Efficiency

Welcome to San Francisco

- o Enjoy your stay in PG&E's "home town".
- o Special events this week are celebrating the 100th Anniversary of San Francisco's rebirth after the 1906 Earthquake and Fire.

PG&E's Commissioning Philosophy

- o Cx is a crucial strategy in ensuring the energy performance of new buildings.
- o We provide technical support and training as part of our integrated suite of demand-side services.
 - Education at the PEC
 - Innovative monitoring equipment lending library.
 - Web-based Commissioning Assistant tool.

PG&E's RCx Philosophy

- As part of a three-year, \$950 million effort, retro-commissioning programs will deliver a significant portion of our demand-side energy management goals.
- Several of our pilot programs (partnerships) will continue in 2006-08:
 - UC/CSU
 - Silicon Valley Leadership Group

New RCx Programs

- New programs for 2006-08 include:
 - Targeted third-party programs for the Federal government, commercial offices, hospitals, and data centers.
 - Partnerships with local governments, California Community Colleges, and California Corrections.

Development of PG&E Branded RCx Program

- Likely to include two or three options regarding project scope.
- Will include a building benchmarking component.
- Will meet cost-effectiveness and persistence requirements.
- Will challenge the RCx delivery community to ramp up to meet customer demand.

Vision

- PG&E's vision is to become the nation's leading utility, and our energy efficiency programs will be a key component of reaching that goal.
- We're here to share our expertise, and to hear from you, so that Building Commissioning becomes a vital industry, meeting the needs of our mutual customers.
